General Report Comments: Upon arrival i met Judy and Chantel. I shared a nature of complaint and they granted me access to do an inspection.

The set up is big cages and the cages are separated. I observed 16 birds and each cage has 2 birds. The cages are adequate size and there is sufficient space . Each and every cage has patches. The birds appears to be in a good condition and good health. Fresh water is provided and they are not done cleaning the cages. Judy was only left with 2 cages to clean for the day. Judy confirmed the owner is in hospital and he will be back today. Food is provided for the bird and there was no empty bowl seen. Two chickens were also observed in a good condition . The cages are clean

I strongly believe the case can be closed. There is no contravention of the Animals protection act 71 of 1962 and there is no further action that can be take. Case can be closed.
