General Report Comments: Upon arrival i met Judy and Chantel. I shared a nature of complaint and they granted me access to enter the property.

The set up is big cages and the cages are separated. I observed 16 birds and each cage has 2 birds. The cages are adequate size and there sufficient space . Each and every cage has petches provided. The birds appears to be in a good condition and good health. Fresh water is provided on hanging water bowl and Judy was busy with the cages cleaning. Judy was just left with 2 cages to finish cleaning.

Two chickens were also observed in a good condition and good health . They have access to water.

There is no contravention of the Animals Protection act 71 of 1962 and there is no further action that can be taken. I strongly believe the case can be closed.
