General Report Comments: Upon arrival the dog was roaming freely on property and no one is home.

The dog appeared to be in a good condition and clinically alert. The living environment is clean and hygienic as no feaces were observed. There are toys that were seen on the property for the dog to avoid boredom. The dog is roaming on property, has access to the garage that is left open and there is a kennel in the garage. Portable water is provided for the dog

When i was about to reverse out. Jessica was just arriving at the property and she explained to me that the dog is only put on the chain when someone is driving out. This the 2nd time I'm visiting this property however the dog is always roaming freely when i visit the property.

There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. I strongly believe the case can be closed and the animal on property is sterilized.
