General Report Comments: Upon arrival i met Eben. He granted me access to enter the property and the dog is also socialized with other tanents dogs.

The dog appeared to be in good health and clinically alart. The dog has access to the house as shelter at all times and portable water is provided for the dog. The living environment is clean and hygienic as no feaces were observed.

The dog appeared to have gained weight compared to the first visit. The dog is roaming freely on property and can express animal natural behavior.

I strongly believe the case can be closed. There is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that can be taken regarding the act. Eben further stated he will never stop using nexguard as he didn't have any info about what to use for internal and external parasites.

Case Finalized.
