General Report Comments: I've been to this address end of May and the complaint was regarding noise. However I tried my luck to visit this property again

Upon inspection at the gate I was met by Sihle and he informed he knows i was at the property last month. As i shared a nature of complaint he asked me if I've seen shelter at the back. I explained to him that i came to check and he wasn't interested.

The dog at the property is named Frostler and it was roaming freely at the front yard. The property is big and has a shelter at the back for the dog however the dog likes to sleep next to the front door. They also have chickens that are in an encloser that is under the tree.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further actions that can be taken.
