General Report Comments: Upon follow up inspection

I met Elias and he granted me access to enter the property

Both dogs were observed in a good condition and clinically alart. Elias has built adequete kennel for both dogs that can protect the dogs from weather elements. Adequete collar is now provided for both dogs and running chain is provided so the dogs can express/exhibit animal natural behavior. Portable water is provided for the dogs and the living environment is clean.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
