General Report Comments: Upon arrival i met Shashikela

The dogs were sleeping next to the main door on a balcony on arrival but the momet i hooted they came running to the gate.

Shashikela sent her son to gate to grant me access.

Three dog were observed roaming freely at the property. The living environment is clean and hygienic. The dogs have access to shelter and water. Do dog appears to be sick and there was a male stray dog on the property that ran away when i was trying to confine it. The dog came to mate and i offered a sterilization but Shashikela is not interested she began to lacture me about how it against God even when i explain the benefits

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
