General Report Comments: Upon inspection i was accompanied by Denny from Coastal Horse care unit.

We were met by the owner of an estate. He tried to make excuses and requested he must know everything that is going on at his property. It was made clear that Hayley was informed we're on our way.

We entered the horse paddock and 4 horses were observed roaming freely. One horse was slightly underweight and i checked the watertrough but no water was provided. Hazadous objects were observed that can cause injuries. Van Gen Berg tried to make an excuse that the guys are busy fixing the fencing.

I made it clear that i dont believe it cos wire is lying at the centre of the paddock. Hayley was on her way back to buy hay for her hours and during the inspection the horses were grazing.

3 dogs are clinically alart however one dog was recently admitted to the vet for treatment. There is someone who kicked the smaller dog.

I issued a warning

1. To provide the animals with adequete food on daily basis .
2. To provide the animals with sifficient fresh water 24 hours a day.
3. Hazadous objects were observed where horses are kept and they must be within 72 hours to avoid injuries.

ACTIONS

Warning Issued	6535
