General Report Comments: Was met with owner who appeared to be intoxicated as he couldnt speak properly and looked confused and could not give me straight answers regarding his dogs. The dogs are in physical good condition. When asked about the dogs roaming in the street he eventually said the small puppies escaped underneight the gate but they fixed it. When asked about the mother dog he said the dog died he doesnt know from what. Two puppies have short tails, one flat againts the back and another about three centimeters long. According to owner they were born like that and denies any sort of tail docking. Also could not see any signs of docking. Did educate on sterilization. If another complaint is received we can just check tails again. One black has short tail and one tan and white meduim tail. No further concerns
