General Report Comments: Upon arrival i hooted at the gate
Luckily Alias Was outside he opened the gate .

The dog is roaming freely at the property and appears to be in good health. The dog is clinically alert having access to adequate shelter and water. We walked around the property as Elias was proving the dog is roaming freely showing feaces from yesterday and fresh feaces. He also showed me holes that he has been fixing with his neighbor who always assist him.

Elias further explained that one of his dog was killed cos some people broke in to his house. The black was a bit aggressive and it was killed. The people who broke in managed to open his NP300 and stole computer and he didnt take litely cos he wrote a message to the community group that whoever is targeting him must face him cos he is a Manager at SBV

I strongly believe the case can be closed. There is no contravention of the animals protection Act 71 of 1962 and there is no further action that can taken.

Both dogs were sterilized by SPCA
