General Report Comments: Upon arrival i met Elias Luckily he was outside.

He granted me access and the dog in question is roaming. The dog has access to adequate shelter and portable water. The living environment is clean Elias walked me around to show me the holes from the fence he has been fixing and feaces from previous day. He showed also fresh feaces as proof that the dog is roaming freely.

He further explained that one of his dog was killed by people who broke into his house. He didn't take it litely cos they stole computer box from his vehicle by breaking the window while he was at work. The dogs were sterilized by the SPCA

I strongly believe that the case can be closed. There is no contravention of the Animals protection act 71 of 1962 and there is no further action that can be taken
