| ANIMALS IN GOOD CONDITION       | No *** mother dog underweight - told to give more food |

General Report Comments: Was met with owner. The mother dog is quite underweight. Educated to feed extra as he is only feeding pellets twice a day. The puppies are in good conditions. The other cross puppy is also in a fair condition. Showed his neighbour as placed wooden planks next to his wall that the dog is now using to get out. He has asked him to move it. Also said they are just waiting for the puppies to get weaned then they will surrender to the SPCA. Said he must arrange for the mother to get sterilised as well.
