General Report Comments: The property is a corner property with the back side of the property facing the main road Nigel Road. However, the back solid gate does not get used at all and the property walls are 2m high. The front entrance is on Federal Road and the front gate is a steel gate with small gaps. However, the front and back yards are separated with steel fences; therefore, the dogs do not have access to the front driveway area. The back yard is large and of sufficient space for two large breed dogs. Water bowls and wooden kennels are present outside; however, the dogs sleep inside the house. During the day someone is always at home; therefore, the dogs have access to inside and outside the house the whole day.

The current female dog will be sterilised on the 22nd of January 2025 as the applicants are doing a sterilisation package with the adoption.
