General Report Comments: Upon arrival the Rottweiler dog was roaming free in the yard. Mr and Mrs Ndaba opened for me and explained why the dog is chained during the day. A few weeks prior the Springs SPCA picked the dog up in the streets as a stray as the dog had learned to jump over the 1.8m wall. Upon claiming, the dog was microchipped and sent home. After getting home the dog tried to jump again. The owner's are in the process of making the walls higher, as well as, the walls shared with the back neighbour as those walls are 1.5m.

In the chained perimeter, there is a wooden kennel and stainless steel bowls. One of the bowl is filled with water. The other is empty. I was advised the dog is fed a diet of Monty and Me Adult dog pellets twice a day. The dog was in satisfactory body condition and friendly in demeanor. I explained to the Ndaba's that chaining the dog is illegal and causes intense behavioural issues long term. We discussed a short term solution for the dog by putting the dog on a runner until the walls have been completed.
