General Report Comments: Upon arrival Mr Padi and his young son were on their way to the shop. After the young son returned from the shop we entered the property to conduct the inspection. The dog was in satisfactory body condition however was covered in ticks. We advised Mr Padi that adequate parasite control NOT BEING JAYES FLUID was needed. We also spoke to Mr Padi about how the young boy treats the dog and that he has to treat the dog with gentleness and respect. The wooden kennel kept in the back room had dirty blankets within and the floor of the outside room dirty. We advised Mr Padi that the shelter needs to be clean at all times and bedding materials washed weekly. We further advised Mr Padi about the dangers of feeding table food and bones to the dog.
