CHECKLISTS

General Report Comments: The front of the property is enclosed with palisades that have been reinforced with wooden slabs in the gaps creating a solid fence. The front gate is also a solid metal gate; therefore, no small animals can escape the yard through the front. The sides and back of the property are enclosed with precast walls. The front and back of the property is separated with steel gates on either side of the house. There is a doggy door in the back door's security gate. Mr Kok informed me that he used to have two Jack Russels but they were euthanased a month apart from each other due to old age related health issues. The dogs will be kept in the back yard with permananet access to the house via the doggy door.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

PRE-HOME INSPECTION APPROVED Property safe and secure for small breed dogs.

CASE FINALISED - NFA
