CHECKLISTS

General Report Comments: The front of the property is enclosed with palisade fencing with wide gaps and a pedestrian gate. The main gate is in the back yard, also made of palisades but the entire gate is reinforced with mesh. The rest of the property is enclosed with precast walls with barbed wire on top. The front and back yards are separated with a steel gate on the right side of the house that is reinforced with metal fencing and a solid gate on the left of the house. The back yard is not huge but also not too small for the size of the dog he is wanting to adopt. Mr Mudau has ordered a kennel and expects it to be delivered on Friday the 6th. Mr Mudau also explained that to prevent theft or poisoning he wants the dog to be solely in the back yard and not be seen by the community through the front palisades. Mr Mudau explained to me how he met Foxie and had an instant connection and he is so excited.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

PRE-HOME INSPECTION APPROVED The property is safe and secure for a medium breed dog.
