Comments:	I received a response from Bok and Rickus via email stating that they confirm what I asked from them on the warning sent via email (see attached email). Rickus also sent me the training they provided to their staff on the 31st of May 2024 on Animal Handling and Welfare hosted by Dr Francois de Villiers. (see attached attendance form) Rickus confirmed that their pest control company will trap the cats for them the way we do. We can follow up within 7 days to see whether the cats are removed.
