Comments:	Hugh and I, Elani arrived in September street. The residents showed us where the pig was. Fredericks from Law Enforcement also arrived and assisted us. The pig was injured, apparently bitten by dogs. We tried catching it in this yard but it ran out to another persons yard. We had to catch it with a catchpole. With Liza's approval we admitted the pig at WAHG. Dr Van Zyl looked at the pig and prescribed antibiotics. To find a place for the pig to stay
