Comments:	Elani called George to find out what he needs for us to do. He explained that his issue is the bumper of animals and cruelty under the farm workers animals. He also explained that they havent added animals to their rental agreement. I told him that they need to accept the current animals, and should enforce the rules with any additional animals coming to the spca. I explained to him that I will take a senses of the animals on the farm and take surrenders as they come. I will also go house by house and issue warnings if the Animals Protection Act 71 of 1962 is contravened. He agreed with my methodology and seems keen to organize a sterilization day. He also agreed that we can come Monday.
