CLEAN LIVING ENVIRONMENT	No ***	Hazardous material and excess faeces
ANIMALS IN GOOD CONDITION	No ***	Sheep with wound and maggots
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Injured sheep
CONFINEMENT OF ANIMALS	Caged - adequate space	Farm animals

General Report Comments: Hugh and I, Elani arrived at the Clanwilliam informal settlement and started to do our follow ups. Today we had pamphlets on livestock farming. I made sure to give each farmer the relevant pamphlets depending on whether they have cattle, sheep/goats or pigs (see documents). Less people were present today than previously. Most of the people complied very well with my previous warnings but there were four farmers that was still concerning. The one farmer that I wanted to get a court order for did comply with water and food. There are two owners that still had very dirty and wet camps with no drinking water available for their pigs that I am considering to confiscate including Toto Mbashe. We also met with the complainants again and she showed us another sheep farmer that sheep was attacked by dogs. The owner did take them to the veterinarian but the wound on its neck was still wide open, raw and had multiple maggots and eggs deep inside the wound. The hand called the owner who agreed that we could euthanize the sheep because of this even though it's on antibiotics. I took the opportunity to train Hugh to euthanize large animals.

We issued the follow warnings:

Warning 015:
Owner: Ockie Prins, DOB: 430428, Cell no: 0660762356

- 1. The pig camp is open for all pigs to move through but still wet on certain areas. Keep it as dry as possible and consider making drainag
- 2. The pigs did not have access to water. Ensure to provide water for pigs at all times. Place bucket in tyre to prevent knockover as Hilton Bumberley did with his camp.

FINAL Warning 016:

- 1. Your pigs enclosure is extremely dirty and wet.
- 2. Ensure to provide your pigs with a dry, raised, sleeping area or closing three sides of the enclosures to protect them from the elements.
- 3. Clean the living environment thoroughly from excess faeces.
- 4. Ensure your pigs have clean water at all times.
- 5. Do all of the above within 7 days.

FINAL Warning 017:

- 1. Ensure to provide your pigs with water at all times. Place a bucket inside a tyre to prevent knockover.

FINAL Warning 018:
Owner: Toto Mbashe, ID: 6307105874088, Cell no: 0834134277

- 1. Your pigs enclosures have hazardous material that can cause injury to your pigs (wire, rocks, holes, etc.) and some of them is extremely wet with excess faeces.
- 2. Ensure to provide water at all times. Place bucket inside tyres. There is no water for them at this time.
- 3. Clean the pig enclosures from hazardous material and faeces within 7 days.
- 4. Provide dry, raised, sleeping areas for your pigs within 7 days.

To discuss matter with NSPCA on how to go forward with court orders as Toto Mbashe has 21 pigs.

ACTIONS	
Warning Issued	015 - 018
REPORT OUTCOMES	
Follow-up inspection to be conducted	2024-07-05
OWNER COMPLIED
