CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Underweight
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - inadequate length ** Dogs fight amongst each other.	

General Report Comments: Elani and I,Hugh arrived at the premises and we then called and it seemed as if there was nobody home.So we did not enter the premises.

We then noticed four dogs and that three of the dogs are extremely underweight ,also on a inadequate length static chain,no shelter and only some of the dogs have access to water.The one dog was roaming freely but also extremely underweight.

Elani then started writing up a warning and then a vehicle pulled up at the premises. We then introduced ourselves and asked if they are the owners of the animals and live at the property,they then said they don't live at the premises but came to pick the girl up who lives at the premises.

They then called the girl who lives at the property and she came outside.

We then spoke to her and she said her dad is the owner of the four dogs .When asked when the dogs were dewormed she couldn't recall and we also asked where he is she said he is not there.She then asked her how often the dogs are fed and she said twice a day.

We then explained to her that the dogs look in really bad condition .She then asked someone to bring her phone so she could call her father,whilst saying this her father came out of the house.

We then introduced ourselves to him and explained that the dogs are in really bad condition and he said he puts them on a chain because they fight amongst each other and he does untie them in a certain time of the day.I then told him the dogs need to have better collars and not chain around the neck and asked if he dips his dogs and he said he does often but the dogs still have ticks and fleas.We also mentioned the dogs could possibly have some underlying sickness and also advised him to start feeding puppy bobtail so the dogs could gain some weight and we gave him 2 days to get the dewormer or he could sign over some of the dogs aswell so we left our contact details.

Warning 014 was issued to:

- 1.Your dogs are emaciated,on static chain and have no shelter.
- 2.Ensure to provide adequate food (preferably puppy food)
- 3.Ensure to provide adequate shelter(raised flooring,3 sided and waterproof roof for each day)
- 4.Ensure to provide adequate collars for each dog within 7days(piping around neck)
- 5.Ensure each dog has access to water at all times.
- 6.Provide dewormer to all your dogs within 48hours.
- 7.If you want to surrender your dogs to the SPCA, You can do this at any time.

-Contact us for any other questions.

To follow Tuesday.
