General Report Comments: Hugh and I, Elani arrived at the property and met with the daughter. We saw two of the dogs were on static chains, Lee cut the grass and all of them had water.

When we asked her whether they want to surrender some of the dogs, she already called her father to come home.

We waited until Lee arrived. Whilst waiting we noticed that the two female Boerboels were extremely emaciated and the one had puss coming from her eyes and coughed.

When Lee arrived he showed us the dewormer that he bought from us over the weekend and he showed us a photo of shelter he is busy building for the dogs. He then decided to sign Dora and Fibi over for surrender. He will still think about surrendering one of the remaining dogs over.

To recheck on shelter and running chains or whether the remaining dogs are kept separately free roaming by Friday.
