General Report Comments: Hugh and I, Elani, arrived at the property and met with the landlord of the property, Johanna who was present. She owns 3 cats.

She explained that the dog belongs to her tenant at the back but that they are moving Ng soon.

As we looked at where the dog is kept, he was on a suitable running chain with an adequate collar. He had access to water but the shelter was only a plank against the wall.

I explained to Johanna to let the owner know what the shelter should look like and issued a warning to:

1) Provide River with adequate shelter within 7 days (three sided wall, raised flooring, waterproof, roofing).

To do a follow up within a week.
