General Report Comments: Hugh and I Elani arrived at Oude Wellington but the gate was closed. We tried moving closer to the gate and it opened.

We then drove to Andamar Stud. The gate was open but no one was there. We saw that the grey stallion was still kept on the same spot with no shelter.

The chestnut stallion to the left of the entrance also had no signs of shelter being built. We noticed heaps of old faeces lying in this horse's enclosure.

We then drove to the feed store where there is always someone but no one was there today. None of the camps had any signs of shelter being built.

I then issued a warning to:

1) It was observed that no signs of starting to build shelter or any horses have been built. Ensure that all the enclosures containing horses have adequate shelter that protects them against the elements within 21 days.

2) There were heaps of old faeces observed in the top camp where the chestnut stallion is kept. This needs to be cleaned and removed within 48 hours.

To follow up within 48 hours on cleanliness
