General Report Comments: Elani and I,Hugh arrived at the property and stood infront of the front gate. We then contacted Astrid(the owner) and she opened the gate for us.We then introduced ourselves and she allowed us into her premises.

As we went into her front yard we noticed two of her dogs laying on the couch in the front,Sissy and Tripod she then informed us that both of them were very old aswell as Levi.Levi and Tripod are siblings and the same age.

We then entered the house and noticed the house is extremely large .The dog beds were basically lying in every different room to accommodate the older dogs or dogs of any age .

We then saw Rosie who was a bit overprotective of her owner but not aggressive only growling towards us newcomers.We then walked towards the back and saw Levi running towards us and is extremely friendly.

We then asked whether she has a pool and she showed us the pool but also the cover of the pool.We then advised that it would be more suitable for the dogs to be indoors since they are puppies.She then told us that she basically is adopting the dogs in order for them to sleep on the bed with them and that the dogs will only be outside when they are being potty trained.They also work from home and they have a 24hr cleaner that lives on the premises to supervise.

Overall the house is extremely large and has a nice environment.

Home check approved.
