General Report Comments: Elani and I,Hugh arrived at the property and we were greeted by a builder in the front. We introduced ourselves and explained that Barry had asked us to come at 15hoo.The gate was then opened by one of his workers on the farm.

We then waited for him and he then finally arrived and told us to follow him .We then followed him to his house and arrived at the house.

We then introduced ourselves and at first Barry was very calm and welcoming .We then saw the dogs and he invited us into his home.We then met his wife and we introduced ourselves.When asked if we could sit down and he allowed us.

As we were sitting down they mentioned that they had not had a good experience with Wellington SPCA and this experience wasn't any better.They expressed their discomfort with the Contact Warning left on the gate.Elani then went through with them why we do things in the manner that we do it.They didn't want to understand anything and said we should change the way we do things(all SPCA's).They then mentioned they will get in contact with NSPCA to tell them they should change the way that contact warnings are left.Elani then apologized for the way they may have perceived it.

After a exhausting explanation we then got to the home check and we noticed that Nina is in good condition.

Barry's wife then showed us the rest of the house and we were then pleased we could see bedding for the animals and numerous water bowls around.

Nina is still very happy and comfortable in her home.Post home check passed.
