CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Leila emaciated
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Leila emaciated
CONFINEMENT OF ANIMALS	On running chain	Knuckles

General Report Comments: Hugh and I, Elani arrived at the property and there were two men and one woman sitting on the porch outside. We introduced ourselves and explained why we were there .

The people gave is access. The 4 puppies were enclosed in a kennel without their mother Leila and no water in darkness. Teo male fogs and Leila was free roaming and Knuckles is kept on the right side of the house on a running chain. All of these dogs had access to water and shelter. The running chain was also in working order.

Leila, the mother dog however is emaciated. The people told me the male adult dogs belong to them and they feed Bobtail to them twice a day. Leila and the puppies belong to the tenant at the back named Andre Paulse. He was not at home but his car was parked in the friveway (CN4981).

I then educated everyone present about dewormer and feeding puppy food will help the animals gain weight.

I left a Warning which Orion Saulse signod and accepted for Andre Paulse yo :

- 1) Provide adequate food for leila and puppies (Bobtail puppy) and feed at least twice a day within 24 hours.
- 2) Provide Leila and the puppies with dewormer within 48 hours. (triworm C, Endovet, Milbemax)
- 3) Upon arrival, thr puppies were envcosed in the kennel with no access to to the mother Leila and water. Ensure they roam freely within 24 hours.
- 4) To contact the SPCA within 24 hours.

The people present said there is an envlosed camp at the back of the property where they can keep the dogs. We also educated them with regards to us selling dewormer for R25 per pill and how much they will need and about the vost of sterilization.

To follow up tomorrow on food and the puppies living environment .

ACTIONS	
Warning Issued	058

REPORT OUTCOMES	
Follow-up inspection to be conducted	2024-08-16
