General Report Comments: Elani and I,Hugh arrived at the farm houses and we noticed one dog roaming next to the road which seemed like the dog that had burnt marks on its back(see in uploaded photos).

We then went inside and saw a few people in one if the properties .We then greeted them and introduced ourselves.We asked them who has dogs in the area.They then mentioned that they are the only tenants who has dogs in this area.They then stated that they did call law enforcement to remove their animals but did not have funds to pay them. We then asked who they would want to surrender and they said they would want to surrender the 4 females which they have.They would want to keep one of the male pups.

They then told us that there were no other dogs on the farm but only 3 cats surrounding them. We then spoke to them and told them that we would ask for sponsors in order to sterilize their remaining animals.

They then helped us load the dogs in to our vehicle and we gave them deworming for the remaining animals.

To discuss sterilization with liz.
