General Report Comments: Hugh and I Elani arrived at the property. We went to the front office and asked Robert King to call the complainant for us. We then went to Kanaan and met with Eric. Eric told us that by word of mouth he heard via the farm tenants that the cats disappeared and they saw George King digging a hole in between the vineyards. They suspected he shot the cats. Eric stays in town and said the people are scared they will lose their jobs if they speak. I gave him information pamphlets to hand out to the workers and we agreed that I speak with George and Robert King about doing a General living condition check instead of giving him a warning as there are no proof.

We then went back to St Malo and spoke with Robert and George and explained the issue to them . They were thankful that we will do a GLC at all the properties and agreed to help the guys sterilize their animals. They said the cats are a problem. They agreed to work with us.

Hugh and I then visited each farmhouse to get the amount of animals on the farm.

Isak Willemse

He owns 4 cats and surrendered one old blind cat over to us. He now has three male cats.
