General Report Comments: Elani and I,Hugh arrived at the property. We could see that the dog at the gate named flame was on a static chain.We were then greeted by one of the tenants and they allowed us access .

We then went inside and they loaded the dogs into the vehicle. We then turned our attention to the dog on the static chain. We then educated the owner on how a running chain is better for the dog. They then agreed and bought dewormer from us. Flame also had a chain around his neck and we then provided them with a collar.

Warning 093 was then issued to:

-Provide Flame with a running chain as discussed and provide an adequate collar within 7 days.
