General Report Comments: Hugh and I Elani arrived at the property and met with the owner named Janette.

We introduced ourselves and told them why we were there. They have a male and female pitbull and 10 one day old puppies.

I proceeded to ask Janette when they will give the puppies away and she answered, after their first vaccination. I then explained why and agreed. I then educated her to feed all the dogs Puppy food to keep Chloes condition up as she has many puppies. They get Montego food. Both dogs had access to water and adequate shelter.

Chloe is kept on a stoep raised from the floor and they closed the one side with shade cloth which makes it three sided.

Buster roams most of the yard and he had access to good food and water and his kennel is kept in the back.

The owners are very clued up on what is right and wrong so we could only educate them in the right direction.

They are willing to sterilize and vaccinate their animals in the future. We gave her a sterilization form that includes all our information regarding sterilization and vaccinations.

Case to be closed.
