General Report Comments: Elani and I,Hugh arrived at the property. We were then greeted by one of the tenants. We could then see the injured dog and we asked whether he was hit by a car. The owner then arrived and he mentioned that his cousin said that the dog had been hit by a car.

We then assessed the dog and we could see that it seemed like nothing was broken and that the wound had most likely healed. We then gave him enough time to get the dog to our mobile clinic on Tuesday which he agreed to.

Warning 102 was then issued to:
-Max gas an injured back right leg. Ensure to provide veterinary treatment for Max within 6 days.

To follow up on Tuesday.
