General Report Comments: Hugh and I, Elani, arrived at the property and met with Lindsay after Shireen gave us access telephonically.

Upon arrival, we met the co owner Lindsay who previously worked at Cape of Good Hope SPCA and introduced ourselves.

See checklist attached for more detailed information.

Main concerns that were found was Onyx that had large cancerous growths and the horses hooves were overgrown and a farrier hasn't been there in the last 6 weeks like Lindsay claimed which is concerning.

I sent Warning 024 via email to:

1) Veterinary concerns were observed with Onyx (Female Doberman). Veterinary treatment (less than 3 months old)and proof of this need to be provided within 7 days.

2) Provide the SPCA with proof of Euthanasia of Bullseye and the previous farrier report for all the horses to ensure that their records are up to date. Some of the horses were observed to have overgrown hooves. Ensure to provide farrier services within 14 days.

To follow up on Onyx within 7 days and on the overgrown hooves within 14 days.
