General Report Comments: Hugh and I, Elani arrived at 10 Adam Street and met Mark Otto as he was home. We went to the back where Max was kept and saw he was still in the same living situation and nothing has been done. There were lots of stuff stored in this corridor that can be stored outside , the water was dirty and the shelter is inadequate. I explained to Mark how he can fix the situation in detail and as they have lots of materials in the yard to work with. I issued a warning to Mark which he signed to:

- 1) Provide Max with adequate shelter within 7 days.
- 2) Clear Max's living environment from hazardous material within 7 days.
- 3)Ensure that Max always has access to clean drinking water.

Baronskamp:

We arrived at Baronskamp and much more people were home . We asked about Captain mainly. We went to the back and saw that the owner has placed a water bucket in the tyre and that he was free roaming. They are still planning to build a running chain as there is a very busy road right next to where he stays. We could not see any other concerns whilst there and educated the new people there about our mobile clinic that is not that far from where they are. We handed more pamphlets out. We could not get a sponsor to sterilized all of these animals and can close the case for now .

To follow up within 7 days on Max.

ACTIONS

Warning Issued 051

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-08-05

OWNER COMPLIED

INSPECTION ANIMALS

Description:
