General Report Comments: Elani and I,Hugh arrived at the property to remove roofi's stitches. We first called outside and the owner came outside holding her. We greeted her and she allowed us inside to remove the stitches .

Upon walking inside we noticed a pitbull chained to a kennel with excess faeces surrounding the kennel. We then proceeded to remove roofi's stitches. We noticed upon removing it that roofi had already removed it in and it was healing very nicely.

We then turned our attention to the pitbull. We asked Truda who's dog this was and she mentioned it was her late sons dog. We then asked who was the owner at the moment and she mentioned that she usually cares for the dog but she cannot get to everything. We then explained to her sons, her and grandchildren what we expect from them. We asked that they build a runner and provide the dog raised flooring. We also noticed the dog had no water and explained how important water is. We also asked that they would feed the dog twice.

They then agreed to our demands and warning 070 was issued to:

1. Provide Bullet with a running chain and adequate shelter (three sided wall, roof and flooring) within 7 days.
2. Provide Bullet with water at all times (place bucket in crate/tyre)

To follow up on Wednesday.
