| CONFINEMENT OF ANIMALS          | Caged - inadequate space *** | Kennels                  |

General Report Comments: Elani and I,Hugh arrived at the dogs and all sight.We then saw some workers,we then greeted them and introduced ourselves.We asked them whether Louie was at the sight and requested to speak to him.When we arrived at the sight we could see some visible changes,like builders mixing cement and people clearing rubble on the outside of the sight which was hazardous.

We then had the chance to greet Louie and introduce ourselves .He then mentioned that we could go inside his office where all the profiles of the service dogs are .We then went inside and sat down.

We then started speaking and going through the warning that was sent to him .He then explained to us that there are work in progress and they were planning on putting down most of the dogs that have been retired.We then suggested to them that they don't need to drive as far to put animals down as we are right around the corner.He then agreed and said that a vet will be coming on Monday to assess all dogs and decide which has to be put down.

He also then explained to us that many of the dogs get rotated sometimes from malmesbury and other sites.We then explained to him that the kennels need to be fixed aswell as putting some sheets in between kennels to prevent fence fighting.He then mentioned that it doesn't occur constantly but he is going to do so.

We then requested to go around and we first checked the trailers for the non slip flooring .We could then see that they had inserted non slip flooring and we were pleased.

We then walked around the kennels and we told them that they had to put up roofs or atleast something to shelter them from the rain.He then mentioned that they will use what they have and they will see what they can do.

We could also see the new kennels that were built as we requested and they said they will start inserting it as soon as they can.

They also mentioned that it would be a long term project to fix it and we understood and said we will be coming in from time to time to see the progress made and they agreed.

To call on Tuesday in order to get feedback from vet reports .
