ADEQUATE SPACE AVAILABLE	No ***	Static chain
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - adequate length	Aggressive

General Report Comments: Elani and I,Hugh arrived at the farm and called the complainant.She then opened the gate for us and we greeted her aswell as introduced ourselves.

She then mentioned to us that the tenants who live on the farm has alot of cats that are free roaming and wild.We then told her we will do a overall inspection to see the welfare of all animals .

We then headed to the farm and first arrived at Margaret Frederick's home.

We first noticed her seemingly friendly dog laying in the sand on a static chain .We then educated her and told her that she would have to build a runner for the dog. We also noticed the water was dirty.She then said she would correct these things by the evening as soon as her husband arrives

Warning 073 was then issued to:

- Provide Troubles with a running chain within 7 days.
- Ensure to provide clean drinking water for Troubles at all times .
- Provide adequate shelter for Troubles within 7 days(three sided wall,raised flooring,waterproof roof)

We then walked to the neighbour and noticed a elderly dog laying next to a tree in okay condition.We then called from the outside and Maria kok came outside .We then greeted her and introduced ourselves.We asked her where her dog named Meire sleeps and she pointed under the table.We then educated her and explained that she would have to have shelter .She agreed and we also noticed that meire had dirty water.

We then issued Warning 074 to:

- Ensure to provide Meire with adequate shelter within 7 days.
- Meire needs access to clean drinking water at all times.

We then walked to one of the tenants and she had one sterilized siamese cat and there was no problems.

We also walked to Livona Basson and they had a sterilized dog named Jessica .We first noticed Jessica had no drinking water and we educated them on how important it is for her to always have clean drinking water.We also asked them to build shelter for Jessica as she is laying on the porch on a blanket.

Warning 075 was then issued to:

- Provide shelter for Jessica within 7days(three sided walls,waterproof roof and raised flooring)
- Ensure Jessica always has access to drinking water.

We then arrived at one of the tenants who had a male dog on a runner and no issues were found .

We then walked to Maria Philanders home and saw her unsterilized male dog named Gruwelik .He was free roaming but they mentioned that they chain the dog throughout the night and the dog also sleeps in a rusted kennel with sharp pertruding edges.

Warning 076 was then issued to:

- Ensure to provide Gruwelik with a running chain within 7 days.
- Ensure to provide Gruwelik with adequate shelter within 7 days(three sided walls,raised flooring and waterproof roof)-metal bin is not adequate especially in summer.

We then walked to one of the other tenants and there was no problems found .

The last home we visited was where the female dog lady lived but the owners weren't home and she was free roaming.

ACTIONS

Warning Issued	073,074,075,076
