General Report Comments: Hugh and I, Elani arrived at the property and met with Ashlin and her brother. We asked whether we could see the puppy food and they showed us a bag of Vitagen puppy food that they bought. I noticed that there were less fleas on him and they mentioned that they washed the puppy. There was water available and the puppy is kept inside the house throughout the day. The yard has not been cleaned and the gate is still open for the puo ro slip through when outside. I reiterated why its important for them to clean the yard and close the gate. We also educated them about sunscreen for the puppy. As they have complied in some manner, we dewormed, Frontlined the puppy. We also gave additional shampoo. We also educated again about our mobile clinic as we have given them the pamphlet before .

I would like to check on Tyson within 2 months when he is bigger.
