General Report Comments: During the inspection, we observed two separate cages, each containing a live mouse and a snake (Python). In the first cage, the mouse was observed hiding / sitting in a corner of the enclosure and appeared frightened, while the snake was present in the same cage.
In the second cage, the live mouse was observed actively chasing and attacking the snake. The interaction between the mouse and the snake was observed at the time of the inspection. photos and videos were taken and owner was instructed to take both live mouse out of the enclosures. other animals seen inside the petshop appear to be in acceptable physical condition. i have obtained a statement from the GDARD official that lodged a complaint. i am busy comping a docket. petshop will be monitored during the time of the court case.
