Comments by Inspector:

Upon follow-up I met with owner and he allowed me inside the property to conduct an inspection.
I saw that the chickens that are kept outside were now free roaming and fenced with crates. The
area had sufficient water for the animals and to drink. There was a gazebo as well to provide
adequate protection against the elements. All the animals appeared in fair condition.
I went to the inside of a shack that seemed to have been recently made. The shack had alot of
chickens inside and area provided the animals with sufficient space, light and ventilation. The area
was well maintained and water was provided though out the area. All the animals appeared in fair
condition as well.

The owner has complied with previous concerns seen
