

Date: 13 June 2023

Dear Dr Ziyaad,

I hope you are well.

In light of my inspection conducted at Petworld XXL in Diep River on the 9th of June 2023, numerous animal welfare concerns were seen. Some of these animals are currently under treatment at your practice and therefore I require veterinarian reports for the following animals:

Ball Pythons;

Veiled Chameleons;

Corn snake;

Self-crested cockatoo.

Should you have any other veterinarian reports of other animals that you saw in the store and required veterinarian intervention due to alleged neglect, kindly provide these veterinarian reports as well. We thank you in advance for your assistance in this matter, it is highly appreciated.

Kind Regards

Inspector

Werner Taljaard
