Comments: I got a phone call from the complainant via control in last week. The complainant told me that the guy who was arrested and whose dog i had to seize, now has another dog. He wanted to know if we have persued prosecution and if thjs guy may have another dog. I told him that we did not persue as the person was in prison at the time of intervention. I will have to go and examine the living conditions of this other dog. I was unable to do it today. I will do this on Wednesday due to an already heavy load of cases scheduled for tomorrow.
