Subject: Neglect

Toska (INSP174665)

Perhaps I didn't see her water bucket but I did look around for it quite well so this is neglect of water, once out of many times as you're well aware after your many visits. Please also be aware that if the inspector on this case chooses to speak about me to Toska's owners (as is custom it seems) they will be driving the wedge between them and I deeper and deeper and I will no longer be able to see Toska , who finds great joy in receiving love, food and bones from me, as little as once a week.
