Subject: Neglect

Vyrex & her puppies, Sheba, Syrex and Rinty - 174667
Starting off with a bit of humour; in all honesty, it often feels like I'm an unpaid pet sitter to a large majority of these neglected dogs in Bellville South

I saw this group of dogs last night and secretly set about (banned off the property for reporting them to you) placing ice cream tubs of water and food in as many spots as I could but am now exhausted at having to do that every week just so that these 4 dogs have at least a few hours worth of water. Three of them drank from the water that I put down but that source should be finished now so they currently don't have any water and Vyrex (underweight breeding machine) is super malnourished from lack of food and having handfuls of puppies currently drinking off of her .
