Ongoing neglect of shelter for 7 dogs

I'd like to request this case INSP174969

to please be reopened as I am concerned these 7 dogs don't have shelter; around October last year you dropped a wooden crate off for 1 or 2 of these dogs to seek shelter in but one of my kids that lives on the property said that it is no longer at the back where it was placed and I am worried about them in this pouring rain. This case has been ongoing and open for a while (possibly closed now) but I requested that some form of plastic or wood to be put under the stairs to which the owners had 2 stairs done (between 7 dogs) and stopped after that; as far as I am concerned, that isn't efficient nor effective enough for an animal to seek shelter under let alone 7 dogs.

I have included Jaco in this email as this is the owner/property where an inspector said to them that they don't understand why I (Jessica) keep reporting neglect of water when it's the children's fault that their water isn't available as they keep playing with it; I hope that this breach of confidence and agreement of neglect will not happen again as it isn't right.

Thank you,

Kind regards,
Jessica Robertson
