Subject: Re: Dog in distress.

Dear Sir/Madam

I send this mail in confirmation of my telephonic report of the dog in distress at 156 Visser Str. Peerless Park East Kraaifontein.

I confirm that there are other dogs on premises as well. The dog in question is a female Husky x Sharpei with a growth or tumor the size of the end of my thumb on top of her head and fluid coming out of her left ear.

I am aware that previously the same owner hid dogs when SPCA inspected and they threatened me and then kept the dog away when I attempted to take photos. I did however managed to take some pictures.

I sended the pictures to a Vet in Kempton Park for advice and were informed that my suspicions of the dog suffering from brain cancer might be wrong and that the dog might suffer from two seperate conditions.

It is however the Vets submission that the dog need urgent medical attention .

Attached please find some badly focussed pictures of the growth or tumor.

Please alsobe prepared that the owner of the dog will attempt to draw attention away with extreme slander.

I trust that the inspector will not be fooled and detracted by this peoples behaviour.

Please confirm receipt hereof.

Thanking in advance

GW Smit
