Subject:

Dear Sir, (Jaco Pieterse)

I'm hoping that all is going well with you & your family & your staff at the SPCA are all well over this festive season so far?

I'm not sure if you remember me? But if you have here's a little trip down memory lane for you, My name is Adrian Nefdt, I live in Dunoon near Milnerton in Cape Town & I had spoken on behalf of my neighbour about having her female dog spayed & I also queried about vaccinations & was told that you can't assist me with the vaccinations but you will gladly assist me with having the female spayed. I'm forever grateful that you assisted with having it done.

Sir, I'd like to know if there was maybe a slight possibility that something could've gone wrong when the vets did the spading on the dog????

I hope that I'm wrong but it somehow looks like she could be pregnant again & really am not sure what to do as she can't have puppies as all her puppies has passed away from the Parvovirus a the virus isn't easy to get rid of when cleaning up where the virus is.

So it's very heartbreaking & painful to have to go through it continuously when you get attached to a litter & then watch them pass away.. it's very sad & not only for the mother dog but also for us as human parents.

I'm hoping that you will be able to assist me ASAP please as to what it is that can be done .

I'm thanking you in advance

Kind Regards
