Comments:	All 4x animals admission numbers G43636, G43637, G43638, G43639 was returned to the owner. All of the animals was returned in a good and healthy state. I did a last check on the in the living area . There was water available, adequate shelter and they had access to a fairly clean living environment. There's was no contraventions of the Animals protection Act 71 of 1962 and i am confident is closing this case as there is no further action to be taken . Case can be closed until further notice .
