Subject: Fireworks Durbanville

To whom it may concern

Thank you for taking my phonecall this morning and the advice given by your inspector.

Last night - 8 January 2024 at 20.30, I heard a barrage of horrendous fireworks being set off in my neighbourhood in Durbanville. My animals were terrified and I am very fearful for the animals which were close to the house where the fireworks were set off. The NHW has camera footage of the fireworks as evidence and we have a statement from the immediate neighbour who identified the house and called the police. Our armed response companies also rushed to the house but the culprits had by then jumped into their car and left the house.

I have since also been told by the neighbours that the home owner locks his own dog in a small courtyard all day, we are not sure whether it even has water or food. The dog on the premises must have been completely terrified as the fireworks were heard for miles around Durbanville.

We request that an inspector do a house call to check on the circumstances in which the dog is being kept and to address the illegal fireworks which were set off at the house last night.

The address where the offence took place is 41 Primula Street, Wellway Park, Durbanville. Camera evidence can be obtained from Theo Bruwer the head of our NHW. Or from the immediate neighbour who was a witness.

Thanking you
